COMMENT

Meeting Attended:

Important Issues:

Property Uses:
ResidentialComment:
I OPPOSE PROPOSED CORRIDORS 54, 55 AND 56.

We are property owners along these corridors. We purchased this property because of the beauty of the place, views of the mountains and the rugged terrain. We named our place WELOHE short of "we love here". There are not city lights or sounds of the city. It's a perfect get away.

I oppose these giant obnoxious high line poles and wires in my front yard. This will impact our overall setting. They will literally be on our property and in our front yard. Our property value will plummet worse than Wall Street. Not to mention the sight, the noise emitted from the lines when they are located that close as well as health issues and magnetic fields.

I would love for this wide open spece, free from the city environment to be around for my children and grandchildren to enjoy for years to come. If this corridor goes in, we will see these giant obnoxious poles and lines from the time we leave county road 530 all the way to our property and as far as we can see. We are positioned right under this corridor. Think about it, what if these lines were put in your front yard.

I know one of the proposals is to use the existing lines. This would make the best sense of all. It would not impact the environment any more than it was impacted when they were first installed. With the country, state and county being in such financial straights it just makes sense to use the existing route then to reinvent the wheel so to speak. Please keep our state more green by using existing lines or existing routes instead of cluttering the landscape with more poles and lines that are not really necessary.

I OPPOSE PROPOSED CORRIDORS 54, 55, AND 56.
